## Aims of our Summer School

- We aimed to give students the opportunity to foster **strong relationships** with peers and staff through practical and hands on team building activities.
- We aimed to support students to **familiarise** themselves with the school environment, through provision of high quality, active, learning experiences that take place across the school site.
- We aimed to foster a sense of **community and belonging**, as students take part in creative projects that allow them to positively impact on the school environment and develop their sense of 'being Trafalgar'.
- We aimed to **develop** students' **academic skills and interest** in core subjects and ensure they are ready for the secondary classroom.
- We aimed to develop students' and parents' **confidence** in their ability to transition successfully to secondary school.

## How we did this:

Our Summer School was based around our school values:

**I am** Strong and Spirited

**I am** Giving

---

<sup>1</sup> Education, Health and Care Plan

- I am Determined**
- I am Compassionate**
- I am Enthusiastic**
- I am Trustworthy**
- I am Respectful**
- I am Open Minded**

We offered a range of academic and enrichment activities:

## **Evaluation**

In September, we asked students who attended our summer school to complete a short evaluation. Of those who responded, we were really pleased that 97% said they had enjoyed summer school and 88% said they felt the summer school had helped them feel more confident about starting Trafalgar.
